

One nice day in December, we went to pick up my best friend Patty. We went to eat at Garys BBQ. That's when it happened we were in hit by a drunk drivers.

Why do people have to drink and drive?

Because of drinking and driving I lost my best friend Patty. I also could of lost my mom, my little brother that was not born yet, my stepdad Michael, or I could of died myself. What did happen is I had to wear an eye patch and be in a wheel chair for a few days. One of the ways that helps me remember Patty is helping MADD. MADD has been there for me and other people that has been hit by a drunk driver. In the past 2 years I have raised over \$5,000 to support MADD. Now I want to do something great for me and Patty and other people that has been hit by drunk drivers.

I would like everyone in North Carolina to donate \$4.67 to MADD. That is a penny for every person that died in North Carolina by Drunk Drivers this year. Please help me and MADD beat a record this year.

Justin
