

Oklahoma

Since November 2011, Judges must order the use of ignition interlocks for all repeat and first-time convicted drunk drivers with a BAC of .15 or greater. First offenders with a BAC of .08 to .14 can choose to drive during a license suspension period. As of December 2017, there were 9,875 interlocks installed in Oklahoma. Between 2006 to 2018, interlocks stopped 81,055 attempts to drive drunk, including 14,431 in 2018.

Why MADD calls the law all-offender? In order for any first-time offender with a BAC of .08 to .14 to be able to drive during a 180 day license suspension following a DUI, he or she must install an interlock or not drive at all.
